LINING OUT STOCK

CHASE, ALABAMA,

August 1st, 1930.

Fall 1930

....

Spring 1931

We offer the following assortment of desirable items in LINING OUT STOCK, all grown from cuttings except as noted. GROWN IN WIDE NURSERY ROWS where it has been cultivated with a "Darkey and a Mule" for a full growing season, it should not be confused with puny bed-grown stock. Our method makes roots, weight, stockiness and character, plants that outlive and outgrow any "liners" produced in cutting-beds. Quantities are limited. Orders booked in rotation as received. Usual terms and conditions will apply.

IF OUR SUPPLY AND YOUR ASSORTMENT WARRANT IT, WE WILL FURNISH VARIETIES LISTED AT PRICES NAMED, REGARDLESS OF QUANTITY. TELL US YOUR REQUIREMENTS.

Your money is good—our stock and service good.
Let's exchange!

RUBBER BUDDING STRIPS

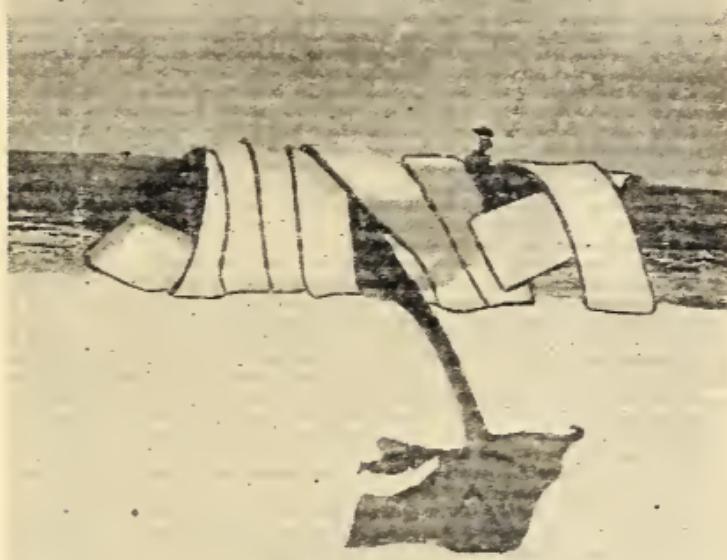

For tying buds, Rubber strips are gaining favor rapidly. Made of live rubber will stretch over four times its length. Holds its "grip" for about two weeks, then slackens SO THAT ALL CUTTING LOOSE IS ELIMINATED, saving a lot of labor cost. Rubber "gives" with the growth, does not strangle or girdle the stock. Easy to handle, inexperienced help soon become experts. Once tied it does not slack or slip. Two sizes in stock; 4 inch for small and medium stocks, runs about 950 Strips per pound; 5 inch, for larger stocks, runs about 750 strips per pound. All cut proper widths ready for use.

PRICE, per pound, f. o. b. Chase *except as noted*

<i>Wisteria sinensis</i> (Purple Wisteria), 1 yr. Grafted..	125.00
<i>Wisteria sinensis alba</i> (White Wisteria),	
1 yr., Grafted	150.00
(Grafted Wisteria propagated from blooming wood and will bloom early.)	

CONIFEROUS EVERGREENS

Chase Conifers, for lining out, are growing in popularity. Established plants TAKEN FROM THE NURSERY ROW develop into salable trees in a much shorter time than do bed-grown liners. Plants described as three year have GROWN TWO YEARS IN WIDE NURSERY ROWS; two year have had ONE SEASON IN NURSERY ROWS; one year are in beds. Two and three year plants have been twice transplanted. All are well rooted and will be carefully puddled as dug.

	Per 100

<i>Nandina domestica</i> , out of 2 1/4 in. pots, 4-6 in.....	12.50
(All Broadleaved Evergreens will be puddled as dug.)	

With but a few exceptions, as noted, all lining out stock offered in this list is grown from cuttings and is now in the nursery row. This means a heavy root system and every plant will grow. Kindly do not compare this type of "Liner" with regular bed-grown stock. Quality considered, these prices are low.

Your past patronage is very much appreciated. We hope to be favored with your order this season.
